## Oven Cabinet Information

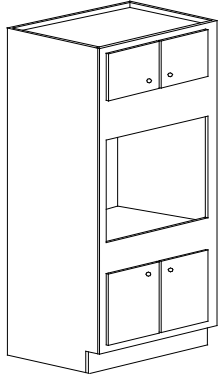

Factory cutouts will be made at no charge if *complete* information is furnished when the order is received. It is the **DEALER'S RESPONSIBILITY** to furnish the proper information; oven cutout dimensions, distance from floor to cutout, and any special instructions required by the manufacturer.

Maximum cutout width is 2 1/4" less than cabinet width. (1 1/2" for frameless cabinetry)

If opening in top section is larger than 15" high, quantity of shelving provided will coordinate with wall cabinet openings.

## Diagonal Oven Installation Kit

Kit consists of two closure panels, 24" x 84" or 24" x 96", and two pieces of moulding notched to seat panel against 45° cabinets.

When installing an oven cabinet on a 45° angle in a corner, closure panels are used to simplify installation.

The cabinet may be installed flush (diagram A) or recessed (diagram B). In recessed installation the adjacent base cabinets must be angled back. This is best accomplished by ordering the adjacent base cabinets with a 6" clipped corner.

## Refrigerator Cabinets

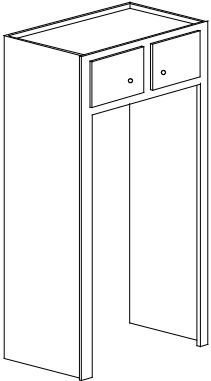

**The Hampshire Co. Worksheet must be filled out and faxed with order.**

Cabinets are manufactured with 1 1/2" stiles which are 84" to 96" high and 24" deep. Opening height is 69".

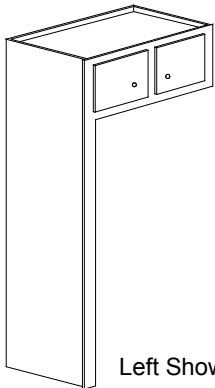

Unless specified otherwise; top section is equivalent to a 15" high cabinet (27" high on 96" units).

Back is on top section only. Opening is 3" less than cabinet width (**1 1/2" less on frameless**) on RC 2 units, 1 1/2" less (3/4" less on frameless) than cabinet width on RC 1 units.

**Note: 33" and 36" wide units have butt doors. 39" - 45" have 1 1/2" center mull.**
